KASARAGOD**

Vision

Innovate, Educate, Elevate: Forging Paths to Technical Excellence and Leadership.

Mission

- To provide students with a quality education that cultivates leadership and expertise in their chosen fields.
- To foster a culture of innovation and continuous learning, empowering students to think boldly and effect positive change.
- To engage in cutting-edge research that addresses real-world challenges and contributes to the betterment of society.

GROUP OF INSTITUTIONS

KUNHITHARUVAI MEMORIAL CHARITABLE TRUST

The Kunhitharuvai Memorial Charitable Trust, or KMCT, was established in 1999 by Dr. K. Moidu, a leading medical practitioner and a visionary educationist, for imparting quality education in different professional fields. KMCT campuses are located in serene localities-Mukkam, Kuttippuram, Perinthalmanna, Vadakara, and Kasaragod-away from the commotion of the city, surrounded by lush greenery and a tranquil environment, making them an ideal place to pursue education.

OUR HOSPITALS

Principal's Message

Welcome to
KMCT College of Engineering For
Emerging Technologies
and Management

It is my privilege to lead an institution that is committed to academic excellence, innovation, and holistic development. At KMCT, we strive to create an environment where students not only gain knowledge but also develop the skills, confidence, and values required to succeed in a rapidly evolving world.

Our focus is on quality education, research-driven learning, industry collaboration, and outcome-based academic practices. Through dedicated faculty mentorship, hands-on training, and innovation initiatives, we aim to prepare our students to become competent professionals and responsible citizens.

As Principal, I believe in fostering a culture of continuous improvement, creativity, and collaboration. Together, we work towards building a vibrant academic community that encourages curiosity, critical thinking, and lifelong learning.

I invite you to make the most of the opportunities at KMCT and shape a future filled with achievement and purpose.

Wishing you every success in your academic journey.

Prof. Dr. Muhammed Anshad P.Y.,
Principal
KMCT College of Engineering For Emerging
Technologies and Management

B.TECH ARTIFICIAL INTELLIGENCE AND DATA SCIENCE (4 YEARS)

The B.Tech in Artificial Intelligence and Data Science is a four year undergraduate program designed to develop intelligent systems and extract meaningful insights from data. The curriculum covers key areas such as machine learning, deep learning, data mining, big data analytics, computer vision, and natural language processing. Students gain strong programming, analytical, and problem-solving skills through hands-on projects, modern tools, and industry-oriented training, preparing them to build real-world AI-driven solutions.

CAREER OPPORTUNITIES:

- » AI Engineer
- » Data Scientist
- » Machine Learning Engineer
- » Business Intelligence Analyst
- » Robotics & Computer Vision Engineer
- » Software Developer (AI/ML)
- » Research Associate in AI & Data Science

B.TECH COMPUTER SCIENCE AND ENGINEERING (4 YEARS)

The B.Tech in Computer Science and Engineering is a four-year undergraduate program focused on the design, development, and application of modern software and computing systems. The curriculum covers programming, data structures, algorithms, databases, artificial intelligence, machine learning, cybersecurity, and cloud computing. Students gain strong theoretical foundations along with practical skills through hands-on labs, projects, and industry oriented training, preparing them to build innovative technology solutions for real-world challenges.

CAREER OPPORTUNITIES:

- » Software Engineer
- » Full Stack Developer
- » Cloud Engineer
- » Cybersecurity Analyst
- » Data Analyst / Data Engineer
- » AI & Machine Learning Engineer
- » Systems Engineer / IT Consultant

B.TECH COMPUTER SCIENCE AND BUSINESS SYSTEMS (4 YEARS)

The B.Tech in Computer Science and Business Systems is a four-year undergraduate program that integrates core computer science with essential business and management knowledge. The curriculum includes programming, data structures, artificial intelligence, cloud computing, and software development along with business analytics, economics, and management principles. Students develop strong technical, analytical, and decision-making skills through practical projects and industry-oriented learning, preparing them to design technology-driven solutions for real-world business challenges.

CAREER OPPORTUNITIES:

- » Data Analyst / Business Intelligence Analyst
- » Business Analyst
- » Software Engineer
- » IT Consultant
- » ERP / Enterprise Solutions Specialist
- » Product Analyst
- » Technology Manager (Entry Level)

B.TECH ELECTRONICS AND COMMUNICATION ENGINEERING (ECE) - 4 YEARS

The B.Tech in Electronics and Communication Engineering is a four-year undergraduate program focused on the design, development, and application of electronic devices and modern communication systems. The curriculum covers analog and digital electronics, signal processing, embedded systems, VLSI design, wireless communication, and IoT technologies. Students develop strong technical and practical skills through laboratory work, projects, and industry-oriented learning, preparing them to build and maintain advanced electronic and communication solutions for real-world applications.

CAREER OPPORTUNITIES:

- » Electronics Engineer
- » Embedded Systems Engineer
- » VLSI Design Engineer
- » Telecom / Communication Engineer
- » IoT Systems Developer
- » Robotics & Automation Engineer
- » Technical Support / Field Engineer

BACHELOR OF BUSINESS ADMINISTRATION (BBA) 4 YEARS

The Bachelor of Business Administration (BBA) is a four -year undergraduate program that provides a strong foundation in business management and organizational practices. The curriculum covers key areas such as marketing, finance, human resource management, operations, entrepreneurship, and business analytics. Students develop practical managerial skills, leadership abilities, communication competence, and industry awareness through projects, case studies, and real-world learning, preparing them for successful careers in business and management or for higher studies such as MBA.

CAREER OPPORTUNITIES:

- » Management Trainee
- » Marketing Executive
- » HR Executive
- » Business Development Executive
- » Operations Executive
- » Entrepreneur / Startup Founder
- » Banking & Finance Associate

BACHELOR OF COMPUTER APPLICATIONS (BCA) - 4 YEARS

The Bachelor of Computer Applications (BCA) is a Four -year undergraduate program focused on computer applications and modern software development. The curriculum includes programming languages, database management, web development, computer networks, cybersecurity, and emerging IT tools. Students develop strong coding, problem-solving, and practical technical skills through laboratory work, projects, and industry-oriented learning, preparing them for careers in the IT sector or for higher studies such as MCA and related postgraduate programs.

CAREER OPPORTUNITIES:

- » Software Developer
- » Web Developer
- » Application Programmer
- » Database Administrator
- » IT Support / System Administrator
- » Cybersecurity Associate
- » Junior Data Analyst

MASTER OF BUSINESS ADMINISTRATION (MBA) – 2 YEARS

The Master of Business Administration (MBA) is a two-year postgraduate program designed to develop strong managerial, leadership, and strategic decision-making skills. The curriculum covers core areas such as marketing, finance, human resource management, operations, business analytics, entrepreneurship, and organizational strategy. Through case studies, industry interaction, internships, and practical projects, students gain professional expertise and business insight, preparing them for leadership roles across corporate, industrial, and entrepreneurial sectors.

CAREER OPPORTUNITIES:

- » Business Manager
- » Marketing Manager
- » HR Manager
- » Financial Analyst
- » Operations Manager
- » Business Consultant

OUR CLUBS

NSS CLUB

The NSS Unit of our college is committed to nurturing socially responsible, compassionate, and proactive citizens by engaging students in meaningful community service and nation-building activities. Through awareness programs, social outreach, environmental initiatives, health camps, leadership training, and volunteer-driven projects, the unit strives to instill values of empathy, discipline, unity, and civic responsibility. Our aim is to empower students to understand societal challenges, contribute positively to community development, and grow as responsible individuals who work for the welfare and progress of society.

ISTE CLUB

The ISTE Club of KMCT Institute of Emerging Technologies and Management provides students with a platform to enhance their technical knowledge, innovation skills, and professional competence. Functioning under the Indian Society for Technical Education (ISTE), the club organizes workshops, seminars, expert talks, technical competitions, and skill development programs that bridge the gap between academic learning and industry requirements. The club encourages creativity, teamwork, research orientation, and leadership among students, helping them grow into competent professionals ready to meet the challenges of the modern technological world.

INNOVATION AND ENTREPRENEURSHIP DEVELOPMENT CELL (IEDC)

The Innovation and Entrepreneurship Development Cell (IEDC) at KMCT Institute of Emerging Technologies and Management is a student-driven platform supported by the Kerala Startup Mission. It promotes innovation and entrepreneurship by offering mentorship, training, workshops, and resources to help students transform ideas into prototypes and potential startups, fostering hands-on learning and industry interaction.

RESEARCH & DEVELOPMENT CELL

Research & Development Cell at KMCT IETM promotes a strong research culture by encouraging innovation, interdisciplinary studies, and continuous knowledge creation aligned with the UN Sustainable Development Goals (SDGs).

It supports and motivates faculty and students to undertake research activities and project development, including collaborative research with sister concern institutions in the medical sector, translating ideas into impactful, technology-driven solutions that address societal challenges and promote sustainable and inclusive development.

INSTITUTION'S INNOVATION COUNCIL (IIC)

The Institution's Innovation Council (IIC) at KMCT Institute of Emerging Technologies and Management, established under the Ministry of Education's Innovation Cell in collaboration with AICTE, promotes innovation and entrepreneurship through ideation, design thinking, IPR awareness, mentoring, industry interaction, and startup-focused activities, fostering a strong campus innovation ecosystem.

CALICUT MANAGEMENT ASSOCIATION

The Calicut Management Association, established in 1996, has been a powerful platform connecting students, academicians, entrepreneurs and industry leaders. Its mission is simple yet powerful to upskill young minds, build soft skills, nurture professionalism, and make students industry-ready leaders of tomorrow. That legacy of excellence is being integrated into KMCT IETM, opening doors for our students to opportunities, mentorship.

CROW VISION

CSE Project Hub CROW VISION is a platform focused on innovative Computer Science projects in areas like AI, Computer Vision, and Emerging technologies.

It supports students by providing project ideas, guidance, and practical implementations to bridge theory with real-world applications.

CODING CLUB

The Coding Club is a vibrant student-driven community that aims to nurture strong programming and problem-solving skills beyond the academic syllabus. The club follows a learning-by-sharing approach, where students teach and learn from peers through hands-on sessions, coding challenges, and collaborative activities. Along with technical learning, the club organizes interactive coding games and events that make learning fun, engaging, and practical. The Coding Club encourages logical thinking, teamwork, and innovation, preparing students to confidently face real-world technical challenges.

Co-Curricular Activities

KMCT Innovation School, an initiative of KMCT Innovation & Incubation Centre

We have formed an active and vibrant Innovation School to transform our students into successful entrepreneurs. The cell aims to conduct activities and events to promote an innovation-driven entrepreneurship culture among students. Our facility with computers of high-end configuration, high-speed connectivity, and state-of-the-art technology will help to nurture the talents of the young buds to develop their innovative ideas to exceptional and commercially viable products and services.

Facilities Offered

Smart Classrooms

To keep pace with the growing integration of technology in education, our classrooms are equipped with state-of-the-art smart facilities. These promote interactive lectures, engagement, and help students visualise complex concepts with ease.

Library

Our well-stocked library supports learning, teaching, and research at our college. It houses a wide range of textbooks, journals, and other resources catering to technology and management disciplines. Qualified librarians are available to assist students and faculty in locating and accessing the right materials.

Hostel

Understanding the challenges of daily travel, we provide comfortable and secure on-campus accommodation for students. Separate hostels are available for boys and girls, ensuring a safe and homely environment.

Transportation

We offer reliable college transportation to ensure students and staff reach the campus on time and return home safely, without the inconvenience of relying on public transport

Training & Placement Support

KMCT provides structured training in aptitude, communication, technical skills, and interview preparation. Through industry partnerships, internships, and placement assistance, students are prepared to secure rewarding career opportunities in leading organizations.
